PLACERVILLE, EL DORADO COUNTY, CALIFORNIA TUESDAY, MAY 19, 1942

NUMBER 39

Tahoe City reports the receipt of word from Congressman Englebright that the Navy has abandoned plans for a thirty million dollar training station and technical school at Lake Tahoe.

Congressman Englebright reports that he is seeking reconsideration on the matter, and we would suggest that if his efforts are to meet with success they must be supported vigorously by groups and individuals who are in favor of the building of the station.

The vigor, or lack of it, with which the congressman is supported in his efforts to persuade the Navy to reconsider its abandonment of the plan, will pretty well demonstrate the public interest in whether the station be established at Lake Tahoe.

Will the congressman's motion die for want of a second?

Chrysolite Rebekah Lodge, of Diamond Springs, in uniting with the several other groups which have publicly expressed their support of the American Legion resolution opposing the settlement of Japanese in El Dorado County, has raised an interesting exception.

The order endorsed the opposition to the settlement of Japanese, but makes an exception to those under military rule.

We do not know whether the other groups had that exception in mind. Perhaps some of them did, but just neglected to mention it.

After all, we are partly in a military area in which the Army is pretty much in charge, and no one knows better than an ex-soldier does what will be likely to happen if the Army says it wants certain things done.

As far as we have ever heard, there is only one answer to an Army order. That is:

"Yes, sir."

You may be pretty positive, by the way, in your dislike of individuals of Japanese origin or ancestry and we feel very much the same way, but had you heard that some of our boys are learning to speak Japanese, so that when they get to Tokyo they can ask their way around. And we don't suppose that their instructors are Icelanders, either.

Talk about "united war effort,"—Dr. Aaron Rosanoff, state Director of Institutions, in reporting that the seven state hospitals are available for the treatment of war casualties "without reservation," added "If more room is needed, we will make room."

The increasing number of applications of private citizens, many of them dependents of persons in military service or employed on military projects, for permission to travel to Alaska has necessitated a statement of policy on the transportation of civilians to the Territory.

The Commandant of the Thirtieth Naval District and the Commanding General, Western Defense Command, are discouraging travel of all women and children to Alaska, especially southwestern and western Alaska, because of the excessive shortage of passenger transportation facilities, the very definite hazard involved, and because subsistence of Alaska is proving increasingly difficult. The nature of the military situation has required, and will continue to require use of all available space in vessels operating between continental United States ports and the Territory of Alaska.

The War Department and the Navy Department have issued orders prohibiting wives and dependents of military personnel, including the Army, Navy, Marine Corps, and Coast Guard, and of civilian workers employed on military projects from returning to Alaska. Permission to return to Alaska has been granted to a few persons who were actual bona fide long-time residents of Alaska. This will be continued as the single exception to the policy of the Army and the Navy in discouraging travel of all dependents to Alaska.

T. L. McCall, one of Uncle Sam's seamen, first class, was up from the Bay District for the weekend, calling on his uncle, V. E. Allen and family.

Arthur E. Miller, of Placerville, has been named to be a first lieutenant in the Tenth Regiment of the California State Guards.

SCRAP DRIVE BY P.T.A.

Friday Is First Of Three Collection Days In War Salvage Program In County

Placerville Parent-Teacher Association reports that plans are complete for the community observance of the first in a series of three "War Salvage Days" to be held in the county opening Friday and continuing weekly each Friday until June 5.

The Parent-Teacher Association is sponsoring the drive this week. Next week, on May 29, the Shakespeare Club will be in charge, and on June 5, the Boy Scouts will be in charge.

Meanwhile, throughout the county various rural organizations are in charge and have been invited by H. M. Lumsden, chairman of the Salvage for Victory Campaign in the county, to make the two-week period of May 22 to June 5 a time of special scrap collection.

According to Mr. Lumsden, the committee has the names of five agencies interested in the purchase of scrap, and intends to invite them to send representatives to the county to bid on the scrap at the conclusion of the campaign. The proceeds of the sale of the scrap will go to the various organizations, according to the amount of scrap they have collected.

Collection of scrap in Placerville on each Friday will be made by city and county trucks, which will pick up the materials at the various homes if it is piled on the front property line in front of the residences.

The P. T. A. points out that the campaign, at this time, has no use for tin cans, stove pipe or automobile fenders should not be included in the scrap collection, as there is no immediate way of disposing of them.

The campaign desires especially to collect scrap metals, iron, copper, steel, brass, copper and aluminum; cotton bags, all kinds of burlap and old rags; old auto tires, tubes and other discarded rubber; and waste paper.

Residents are asked to keep the rags, metal and rubber separately and to flatten out cardboard boxes and tie papers into bundles to assist in the collection.

Rebekahs Second Ban On Japs

Resolution Would Make Exception For Military Ruling On Question

Chrysolite Rebekah Lodge, of Diamond Springs, has joined the list of groups in the county who endorse the American Legion stand opposing settlement of Japanese in this area.

However, the lodge takes note of the Army's responsibility in the matter and the memorandum of the action on the resolution said the action of the order favors "excluding the Japanese from this county except under military ruling."

The order authorized the purchase of a \$25 maturity value War Savings Bond and nominated officers for the new term as follows:

Martha Seidel, Noble Grand; Mary Clark, vice grand; Dorian Sutton, treasurer, and Hazel Lee, secretary. At an earlier meeting, Anna Fitzgerald and Nellie Rymal were elected delegates to the Rebekah Assembly, which meets at San Jose later this month.

The May 28th meeting of Chrysolite Rebekah lodge will be the occasion for remembrance of the May birthday anniversaries.

BLAIN GETS PAROLE ON BURGLARY CHARGE JUNE 1ST

A recent meeting of the state board of prison terms and paroles, held at Folsom, granted parole to Blain was convicted of burglary in the El Dorado County Superior Court when he was found to have entered a cabin on the Walter Bidstrup property, south of El Dorado. The board denied a request for parole by Le Roy Odell Griggs, who had been convicted in El Dorado County of the crime of incest.

SINCE 1910 the Native Sons and Daughters Central Committee on Homeless Children has had more than 160,000 applications for children for adoption and has placed 3,718 children in forty California counties. The Central Committee on Homeless Children is supported by the subordinate parliors of the two orders and is one of the two organizations licensed by the State Department of social Welfare to place children for adoption. In the picture are, left to right, Miss Clarice E. Cook, Grand President of the Native Daughters; Grand President E. T. Schnarr, of the Native Sons, with one of the babes; and Miss Mary E. Brusie, executive secretary of the Central Committee on Homeless Children.

WAR SAVINGS PLEDGE CAMPAIGN OPENS IN COUNTY MAY 24

Victory Minute Men Are Being Enrolled By Frank Irwin As Chairman For Survey To Urge Regular Investment In Bonds And Stamps

Preparations for carrying out the War Savings Pledge Campaign in El Dorado County during the week of May 24 to May 30 are being advanced under the general chairmanship of E. Ogden Hook, executive chairman of the War Savings Committee, and Frank Irwin, chairman of the Victory Minute Men.

Mr. Irwin said Monday that he will appreciate it if those who will volunteer as Victory Minute Men, to contact their neighbors in Placerville or in any part of the county during the coming week, will communicate with him.

"We have been hearing some reports that the campaign intends to 'pry into the personal affairs' of the people interviewed," Mr. Irwin said. "I don't know who started the report or for what purpose, but it is positively erroneous. The Victory Minute Men are simply to initiate a more general and regular investment in War Savings Bonds and Stamps and to ask the people to pledge that they will make a regular investment of a certain amount;—the most that they can."

The success of a voluntary bond campaign as a means of controlling inflation is strictly limited by the amount the people are willing to

MINT SETTLEMENT NOTICE CALLED TO ATTENTION OF MINING MEN

Mrs. Anna Scherrer, postmaster in Placerville, is calling the attention of miners of the county to a notice recently received from the Superintendent of the Mint, at San Francisco.

The notice says: "Due to the annual settlement at this mint, deposits received after June 12, 1942, will not be liquidated until July 1, 1942."

"Deposits received prior to that date or later than June 24 will be liquidated in the customary five days."

STANDARD OIL UNSURPASSED IN TEAM BOWLING CHAMPIONSHIPS

The Standard Oil five won the team championship in the annual county association bowling tournament last week by setting up a pin total of 3204 on Wednesday night, which was more than other teams could equal.

Placerville Eagles were second with 2947 and third place went to the Leo Burgers with 2894.

Lee Johnson led his Standard Oilers to the victory and contributed a 265 game to the series, which puts him well out in front in the all-events total.

The Raffles Girls won the women's league title, in the regular schedule in that circuit which wound up Thursday night.

Doubles and singles competition mark the tournament this week.

Mrs. Irma Lawyer was among Lotus people in town Monday.

MILITIA PLAN TO BE TOLD

Men Interested Welcome To Meeting At Camino On Wednesday Evening

A special meeting will be held at the Timberino Hall at Camino on Wednesday evening at which Farm Advisor Ivan W. Lilley will explain the plan of organization for the State Militia which is presently being recruited.

Farm advisors of the state have been designated as enrollment officers and Mr. Lilley is the enrollment officer for El Dorado County as well as for several other counties lying south of El Dorado County.

The Wednesday evening meeting was arranged as a result of interest in the militia plan expressed at last week's meeting of the Camino Farm Center, where the subject was discussed.

Anyone interested in enrolling in the militia, or in hearing an explanation of the plans for the organization, is welcome to attend the Wednesday night meeting.

Enrollment in the State Militia offers to rural people an organization legalized by the state with which to defend their homes. Practically every citizen of El Dorado County would take up arms to defend their homes in case of invasion. This new organization of State Militia has as its basis the local squads working in their own communities. The Governor has proclaimed and the enrollment card states that members will not be taken out of the county in which they enroll, even in case of invasion.

Local trained groups would be invaluable in defending their own communities, since they are intimately acquainted with all of the locations within their communities.

(Continued on Page Three)

Heavy Snow Pack Is Reported

Sierra Runoff Will Be 105 Per Cent Of Normal, State Survey Expects

With "everybody" planting a Victory Garden and some utilities officials wondering how all the patches will be irrigated, the state Division of Water Resources seems to promise water enough to go around in its final snow survey report for the season.

The division reports that the runoff from the Sierra Nevada snow pack will be 105 per cent of normal.

The division said heavy storms last month accounted for the increase in its April 1st estimate that the runoff would be approximately 95 per cent of normal.

Heavier snow packs in the higher elevations, the agency said, should result in a more uniform and sustained runoff in the late summer.

"April precipitation over the state was well above normal," it asserted. "The Sierra, as a whole, received more than double its usual April precipitation. An unusual feature this spring is the late snows."

Over the Sierra, April rain and snowfall ranged from 260 per cent of normal in the watershed of the Pit - McCloud - Upper Sacramento Rivers to 175 per cent of normal in the Kern River watershed.

This is according to a summary by the state health department. In 1940, El Dorado County had 173 births.

There were 125,050 births registered in 1941 as compared with 111,840 registered in 1940, the State Department of Public Health announces.

For the statistically minded person, the following interpretation is made. If the average weight of the babies born in 1941 was six and three quarter pounds, their combined weight was 422 tons.

If the average height of the 125,050 babies was 20 inches, laid head to foot they would extend 39.4 miles.

Increases in the number of births are conspicuous in those areas where war industries are located. The effect of added population upon an increased number of births, is shown particularly in San Diego, Los Angeles, San Francisco, Oakland, and the surrounding vicinities.

The percentage of white births in California increased from 83.8 per cent of the total in 1940 to 84.5 per cent of the total in 1941. There were 105,634 white births in 1941 as compared with 93,742 in 1940.

Orval Fleming, son of Mr. and Mrs. Oscar Fleming, of Gold Hill, has recently been promoted to be a sergeant in the Army.

Sergeant Fleming is presently stationed at Camp Lewis, Washington.

MEMORIAL DAY PROGRAM TOLD

Participation Of All County Groups Asked By Sponsoring Body

To the end that Memorial Day this year should stand out not only as a tribute to the war dead, but as a tribute to the men who are now serving in the armed forces, the committee in charge of arrangements is giving special emphasis to extending an invitation to all individuals and groups to share in the observance.

Announcing the program for the formal exercises of the day, which are under the supervision of Hangtown Camp No. 138, United Spanish War Veterans, Harry S. Dunlap, chairman of the committee in charge states that the procession will form at the War Veterans' Memorial Building at 9:30 o'clock on Saturday morning, May 30th.

Places in the line of march will be assigned to the colors of the various organizations and to their members. Mr. Dunlap explained, adding that there will also be a section for citizens who are not members of any group, and who may wish to participate in the procession.

The high school band will participate and it is possible the Placerville Grammar School band may also take part, the chairman said.

The procession will march to Union Cemetery and the program will be as follows:

Opening prayer, Rev. J. R. Rudkin; song, quartet arranged by A. S. Fox; recitation, Lincoln's address at Gettysburg, by a selected high school student; selection, by the high school band; address of the day, Col. Henry H. Brown, of Sacramento; song by quartet; benediction, Rev. Father Kenney; followed by military service arranged by El Dorado Post No. 119, American Legion, with a firing squad.

The procession will then reorganize and return to the War Veterans' Memorial Building.

GEORGE HENRY GAY, COUNTY RESIDENT 47 YEARS, DIED THURSDAY

Funeral services for George Henry Gay, for forty-seven years a resident of El Dorado County, were held Sunday afternoon at the Methodist Church in Georgetown under arrangements concluded with the assistance of Memory Chapel. Interment was at Georgetown cemetery. Rev. J. R. Rudkin officiating.

Mr. Gay passed away Thursday evening of last week at a hospital in Placerville, where he had been a patient about six days.

Native of Illinois, he was born August 20, 1852, and came to California in 1885. He had resided at various times during nearly half a century in Cool, Greenwood, Georgetown and vicinity. His wife died a number of years ago.

Mr. Gay is survived by one son, Otis Gay, of Cool.

Mr. And Mrs. Potter Pay Brief Visit

Mr. and Mrs. Carl Potter and son, Robert Potter, were here Saturday for a short visit with friends.

Mr. Potter, who formerly was engaged in mine operation in this county, has closed his property near Virgilia, Plumas County, owing to increasing costs of operation, and is planning to go shortly to Oklahoma to get into the war program with zinc and lead production.

Robert Potter will be associated with his father in the new work.

TAHOE NAVAL BASE TOPIC

Chamber Of Commerce Will Consider Report Navy May Not Proceed With Plans

The report that the Navy has withdrawn its plans for a thirty million dollar training station and technical school at Lake Tahoe, near Tahoe City, will be considered Thursday evening at the regular May meeting of the El Dorado County Chamber of Commerce.

Secretary Wallace M. Ripley said Monday morning that this topic had not appeared on the agenda for the meeting, sent out the latter part of the week, but that the announcement Saturday that the Navy has withdrawn plans for the station makes the subject one of interest to the region and that the matter will be among the subjects taken up.

Additionally, Farm Advisor Ivan Lilley will explain the plan of organization of the state militia, for which he is the local enrollment officer, and the merchant's committee of the chamber will report on its recent activities.

The Navy's inclination to abandon the plans for the Lake Tahoe development was made public Saturday at Tahoe City following receipt of a telegram from Congressman Harry L. Englebright, at Washington, who said he is seeking to have the matter again considered by the Navy.

Shortly after the secretary of the navy on April 14th announced the selection of Lake Tahoe as a naval training station, certain property owners who make the lake their home for a few weeks or months in the summer registered opposition to the lake being used as a naval training station, alleging that the

Winter Pear Vote Called

Grower Members Will Meet Thursday Night, Shippers In Afternoon

Election meetings to select successors to the grower and handler representatives from the Placerville District on the Winter Pear Control Committee will be held on May 21, 1942. Growers of winter pears will meet at 7:30 p. m. at the County Court House in Placerville, California, to name two persons for grower member and two persons for alternate grower member from whom the Secretary of Agriculture will later select the member and his alternate to represent this District.

Handlers of the District will meet at 2:30 p. m. on May 21, 1942, at the Tree Fruit Agreement office, 1910 I Street, Sacramento, California, to select their representatives. Meetings of growers and of handlers have also been scheduled in the five other districts in Oregon, Washington and California covered by the provisions of the Winter Pear Marketing Agreement Program for the election of their respective representatives.

Following the approval of the selections by the Secretary of Agriculture, the new committeemen will be charged with the responsibility during the period ending June 30, 1943, of administering the Federal Marketing Agreement and Order for Winter Pears produced in the three Pacific Coast states.

The committee is composed of twelve members and their alternates with one member and one alternate to represent each of the six districts. Present grower representatives from the Placerville District are Carl Visman, member, and J. J. Wiley, alternate. Handler representatives are A. A. Brock, member, and W. A. Lambert, alternate.

The program, which has been in effect since 1938, provides a means by which the winter pear industry, with the help of the United States Department of Agriculture, may cooperate in attempting to increase returns to growers, and calls specifically for the regulation of the grades and sizes of winter pears which may be shipped in interstate commerce.

Mrs. W. J. Hopper, of Mt. Vernon, Illinois, spent several days of last week here with relatives, O. O. Winn and family, and left on Sunday to resume the journey to her home.

HOW SOLDIERS' FAMILIES MAY REPORT EMERGENCY FINANCIAL DISTRESS

While generous support is coming from American citizens everywhere toward the Army Emergency Relief for its fund to meet the immediate needs of families of the armed forces, officers of the A. E. R. are chiefly concerned in broadcasting information how application may be made for assistance.

All that is necessary is that soldiers' dependents involved in emergency financial distress is that they contact the nearest Army Emergency Relief branch at any Army headquarters, or report their appeal direct to Major General Irving J. Phillipson, Executive Director of the A. E. R., War Department, Washington, D. C.

Buried Treasure

If someone were to circulate the report that thirty paces due west and nine chains due north of the Marshall monument at Coloma there is a wealthy cache of 49er gold, there probably would be a stampede toward that spot.

Stories of buried treasure are alluring.

An all inclusive definition for the word "treasure" might be that treasure is something very precious.

So often, when we think of treasure, we think of precious metals, money, gems—things which we can hold in our hand and of which we might say "This is mine; I may use it to purchase various things to increase my comfort and suit my convenience."

Restrictions of the war program suggest that we will be less likely to be continually "on the go" so much in the future as we have been in the past, and this may afford us the opportunity to discover that some treasure, "something very precious" may be unearthed in our own immediate environs.

You may find a buried treasure in your own yard. Perhaps it will be worth \$10,000 and it may make you very happy.

Because you can't hie yourself off somewhere on an outing that you could just as well get along without, you may discover a treasure, "something very precious," at your own fireside.

Because we will be denied the artificial recreations which we have thought so necessary in the recent past, some wives may discover that their husbands have a practical interest in the solution of home problems; and some husbands may discover that their wives have ideas applicable to the business world.

The two of them, if they are blessed with children, may once again "have time" to find the treasure suggested by the events in the happy and carefree lives of the little ones.

Scrap the Scrap

A series of three "War Salvage Days," spanning a two-week period, is announced as a start in El Dorado County for a community effort in the Salvage for Victory Campaign.

Scrap suitable for conversion to the war program is to be collected by trucks in Placerville on May 22, May 29 and June 5, while in the rural county, various community groups are being invited to direct special effort to war salvage work during the two weeks between May 22 and June 5.

We do not believe that it is the intention of the Salvage for Victory Campaign that a householder will declare a piece of material in which there is still use to be scrap.

The campaign does not seek donations of useful material. You wouldn't help the aluminum campaign or yourself either, for instance, if you were to make "scrap" out of a good coffee pot and then face the need for obtaining another new one.

On the same score, if the "junk" about your place includes items which you may reasonably expect to use or re-use yourself, what would be gained by disposing of it?

The Bureau of Industrial Conservation of the War Production Board has issued a pamphlet about "Salvage for Victory" and it does not ask for contributions of materials which are still useable.

It does ask for "Scrap metals, old rags, old rubber, waste paper."

In other words, scrap the scrap.

Another County Heard From

In this issue we have the privilege of announcing the candidacy of Allen G. "Scoop" Thurman of Colfax for reelection to the office of state assemblyman from the Sixth Assembly District, which comprises the ten mountain counties, among which is Mono.

We know Mr. Thurman personally and like him for his pleasing personality and integrity, but when it comes to filling a public office, we forget all personal sentiments and choose the man we vote for on his ability to fill the office.

In 1938 we chose Mr. Thurman because we believed that he was the man for the office and would give these counties a true representation in the assembly, without fear or favor, and our faith was not unjustified.

In 1940 we were again for Mr. Thurman. His record in the assembly was enviable, but all of this was overshadowed by the unflinching stand, he, along with other members of the assembly, have taken during the past two years. It takes members like Thurman to give California sane legislation and we are for him again in 1942.—The Bridgeport Chronicle-Union.

COLLEGE OF PACIFIC PROFESSOR IN POLITICAL SCIENCE WILL BE SPEAKER SUNDAY AT FEDERATED CHURCH

Dr. G. A. Werner, foreign relations expert and professor of political science at the College of the Pacific, at Stockton, will be the speaker at the Sunday morning service at the El Dorado County Federated Church, discussing "The Dawn of a New Era."

Confirmation of Dr. Werner's engagement as speaker, as received by Rev. J. R. Rudkin, pastor of the church, includes the notation that Prof. Bolon and Prof. Webster will attend to assist in the musical program. Prof. Bolon is a well known

organist and will be heard in a solo.

Werner was a student at Montevideo University during World War I. Today, he is a recognized authority on Latin American history and politics. His ability to glimpse future possibilities in the international scene through the telescope of history keeps him in constant demand as a speaker and analyst of world events. He also directs College of the Pacific education tours, meets scores of speaking engagements annually, and appears in many California community forums.

BETTER STICK AROUND - OLD TIMER!!

THE Book Mark

BY JANE VOILES

While the Book-of-the-Month Club choice for June — Franz Werfel's "The Song of Bernadette" — may seem a little remote from the world of today for many readers it will be a kind of reaffirmation of faith regardless of religious views. "The Song of Bernadette" is a novel based on the apparition of the mother of Jesus at Lourdes, France, and the miraculous cures that followed that apparition. It may come as a surprise to some readers that the vision at Lourdes happened only eighty years ago and not on some forgotten date in the middle ages.

How did Franz Werfel, a non-Catholic and a Jew, come to write this story? Last year he was one of a million in a strange migration that was fleeing from the Nazis. While he and his wife found a temporary shelter at Lourdes, he made a vow that if he could escape to the saving shores of America, he would write the story of Bernadette and her vision. Franz Werfel escaped and is today in California.

Bernadette Soubirous was the daughter of a miller who perhaps through his own weaknesses had fallen on evil days. The family of six lived in a one-room house that had at one time been the town jail. The boards were warped by dampness, the bread was always mildewed but the mother did her best to preserve cleanliness which, after all, was the last mark of human dignity. Bernadette, a simple little girl knows hunger and is not unacquainted with pain. There are nights when she can scarcely draw her breath so severe are the asthma attacks that come upon her. She wears the little wrap of the French countryside called a "capulet" and wooden shoes like the other peasant girls of the village.

One day Bernadette goes with her sister and a schoolmate to Massabie — a place that is a kind of dumping ground, filled with rubble and filth, to look for firewood. While the harder girls ford the river she is left behind. Suddenly in a cavern she beholds a deep radiance as though all of "the old gold of powerful sunbeams" had been gathered together and in its midst, she sees a young woman in white raiment. Bernadette is never conscious of any heavenly visitation in a religious sense, without the use of abstruse terminology, Werfel seems to make the reader aware of the stream of sympathy that flows between the child and the vision. As she beholds the vision, she goes into a trance and her rapt bearing is the mirror that reflects the invisible presence to the crowd. It was not so much a loss of normal consciousness on Bernadette's part, as an enormous concentration of attention. The miracle has never quite lost its power over her little finite minds. It is still something that we can contemplate and love if not understand. Wasn't it Willa Cather who said that an apparition is merely human vision corrected by divine love?

Bernadette reveals that she must go to the grotto for fifteen consecutive days. As the news of her experience spreads over the countryside hundreds and finally thousands come to Lourdes. There is no final triumphant demonstration. The Dean who has put no faith in Bernadette's vision demands a miracle of roses. But the lady in the

PEOPLE ARE WARNED AGAINST SUBVERSIVE FORCES SEEKING TO USE WAR EMERGENCY TO DESTROY "AMERICAN WAY"

SACRAMENTO—A warning to the American people to be on the alert against subversive forces that seek to destroy our democratic way of life and put in its place a controlled system, was voiced today by Don Belding, president of the Pacific Advertising Association, and member of the Committee on Public Information of the State Council of Defense.

In a statement released through the State Council of Defense, Mr. Belding, who is giving liberally of his time to patriotic and defense activities, said:

"In this all-out effort to win the war, every element in American life is being called on to do its full part. One of the most important of these elements is the American press, which is the watchdog of our Bill of Rights. Unlike the press of the Axis countries, and more than any other country of the world, we have a free press—a press not controlled by any group.

"This press today, under a voluntary censorship, is giving the American people the news—quickly, fairly and freely. The fact that all editorial and news comment is not exactly the same is proof in itself that there is no arbitrary control of news. The people are not just given one side of it—they get all sides and can thus draw a fair conclusion.

"Under the guise of assumed war necessity, there are those who would like to control the press so that only one side is presented. Some of these people represent subversive forces who would like to do away with our democratic way of life and put in its place a controlled system. One of their ways of doing this would be to discredit and destroy advertising, which is the main basis of support of the press, and which helps the press to remain financially solvent.

"America has seen by cruel example what happened in France, where a large part of the press was controlled by subversive forces, who told the people only what they wanted them to know. America wants no part of that kind of control.

"The function of a newspaper is to inform—whether it be through

COUNTY PARTICIPATES IN SPORTSMAN'S SHOW AT SAN FRANCISCO

Preparations are near completion for El Dorado County's participation in the first annual Sportsman's Show at San Francisco civic auditorium, May 22 to 31.

According to Wallace M. Ripley, secretary of the chamber of commerce, plans have been made for a distribution of literature concerning the county and the Lake Tahoe area from a booth which the chamber of commerce will erect and staff.

The lumber and materials for the booth have been supplied by the Michigan-California Lumber Company and Secretary Ripley, who is a craftsman as well as a community builder, will supervise its erection at San Francisco.

The county Chamber of Commerce is particularly interested as a participant in the Sportsman's Show, since such a show was suggested by representatives of this county at a meeting of the state chamber of commerce two years ago.

William A. Buckhart, who was employed more than forty years ago at the old Baltic mine, above Sly Park, was in town during the weekend from the Bay District, and had hopes of contacting some of his old-time friends.

Leo Barrett, who enlisted in the Navy several weeks ago, came up from the Bay District during the weekend.

Mr. and Mrs. George L. H. Loran, of Placerville, are the parents of a daughter, Lorna Anne, born on May 4.

MILITIA PLAN TO BE TOLD

(Continued from Page One)

where a suitable defense could be made. In addition the folks in most communities would recognize strangers and might thereby prevent damage by fifth columnists and saboteurs.

Enlistments are open to male citizens of this and allied countries between the ages of 16 and 65 who possess suitable firearms or demonstrate their ability to use firearms. Another requisite to enrollment is that the individual be willing to fight in case of invasion and that he be willing to undergo the necessary training to make him valuable in an organized way in defense of his community.

The groups will select their own officers and will serve without pay. Enlistment is for the duration of the war only. Many folks have expressed a hope that the citizens of California will not be caught unprepared and untrained if bombing and invasion starts.

Enrollment cards are available at the Farm Advisor's Office in the basement of the Post Office Building in Placerville.

BEHIND The scenes in BUSINESS

BY JOHN CRADDOCK

PERILOUS — Most notable quote of the week was this, by a Senate Military Affairs committeeman after hearing seven high-ranking government officials, in closed session, spell out the rubber situation: "actually perilous from a military standpoint!" — These, the strongest words yet uttered on the subject, were given firm backing by the action of officials in urging the Senate committee to recommend the most drastic step that has been proposed in the U. S. toward commandeering private physical property and hurling it into the war drive, namely the legislation authorizing requisitioning of autos and tires. — Admittedly it's the need for saving rubber that lies behind the car-requisitioning proposals. Some members said they expected "nothing drastic" in the way of requisitioning in the near future, but you can paste it in your hat that the threat of drastic measures is definitely here "from now on."

PARTING OF WAYS — Apparently we've reached the stage where still-expanding industrial production — almost all of it war work — can no longer produce gains in retail business. While heavy production hums, retail trade for several weeks has fallen steadily behind the pace it had maintained ever since the days when the upswing was called a "defense boom." National department-store sales gains have run merely 15, 13 and 8 per cent ahead of corresponding 1941 weeks, lately — and this means less actual movement of goods across counters because prices are about 19 per cent higher, on the average. Some stores say the mustomer slow-up was especially noticeable right after the OPA price-freezing order, as though shoppers were waiting for the May 18 reductions. But those reductions will scarcely be worth waiting for, probably averaging out to less than one per cent.

TIPS ON THE TIMES — United Aircraft, which itself has passed back \$26,000,000 in saving on government war jobs after achieving mass-production economies, reports further savings in voluntary kick-backs from its subcontractors, one of which is cutting the price \$2,250,000 on one airplane engine part alone. — "Production soldiers" of industry are leaping into action right alongside "regulars" to help service equipment and keep motorized units rolling in high. Road service men of Willys-Overland have been dispatched to Army training centers throughout the country to train soldiers as "trouble-shooters" to keep the fast, hard-hitting Jeeps in top condition. The instructors were originally road service men for the Willys auto, which uses the same basic power plant as the Jeep, but had special training from the auto company's engineering experts who developed the standard design Jeep for the armed forces. — Three Pennsylvania coal mines, abandoned for years, have been re-opened, and a new one is being dug in Kentucky.

REMOTE PATROL — Far from the ocean-drawing U-boats whose extinction soon will be their assignment, Navy sub-chasers are to be turned out, ultimately at the rate of one a week, by the Pullman-Standard Car Manufacturing company's new shipyard now rising on the shore of Lake Michigan near Chicago. These will be the first all-steel anti-sub patrol craft built in the Midwest. Other Great Lakes

USO CAMPAIGN IN COUNTY OPENS WITH LETTERS INVITING SUPPORT FROM GROUPS; GENERAL SOLICITATION WILL FOLLOW

Spurred by the receipt of letters from men in the armed services telling of the success of the USO work in the camps and stations around the world, the United Service Organizations campaign for support in El Dorado County is under way.

Chairman H. E. Dillinger reported Monday that letters are being addressed to groups throughout the county, as well as some individuals, inviting their support of the USO work and that a general campaign will be launched as soon as this phase of the work is completed.

"The test of the value of the work of the USO is the estimate of its worth which the men in the armed services place upon it," Mr. Dillinger said.

"It must be gratifying to the relatives of the service men and to all

others interested in the USO to know that the men report, almost unanimously, that the USO is rendering a real service to the men in the Army and Navy around the world.

"Our El Dorado County quota in the campaign is \$3,600 and we will intend during the campaign to concentrate not so much upon the amount to be raised as we will upon affording everyone an opportunity to contribute to this very worthy part of our war program.

"If all who are interested have the opportunity to contribute, we will attain our goal, I am sure."

E. Ogden Hook is the treasurer for the USO campaign and those who wish to contribute may address their checks to him at the Bank of America, in the event they are not personally contacted.

Local Happenings

Ranger M. D. Morris was a caller Saturday from his headquarters at Pacific House.

Charles MacLaughlin was among those in town on Friday from Youngs postoffice.

William Higgins was representing the Aukum section in the county seat on Saturday.

A birth certificate on record Saturday at the courthouse tells of the birth on April 30 at Placerville Sanatorium of a daughter, Helen Jean, to Mr. and Mrs. John Bisagno, of Smith Flat.

Chester Ball was here from Berkeley several days last week, visiting relatives and other friends.

Mrs. Annie Jaeger has returned from a visit of about two weeks with relatives at Stockton.

Charles Leventon was among the callers from the Grizzly Flat vicinity on Monday.

Robert Barker was up from Sacramento Saturday for a short stay.

Mr. and Mrs. J. A. Perry arrived Sunday from Chowchilla, for a week's visit.

Oscar McNeil was a visitor in the county seat Monday from near Shingle Springs.

Mrs. Leontine Wallace, of near Shingle, was a caller in the county seat Monday on business.

William Cantrell was a caller Monday morning from El Dorado.

Walter I. Bidstrup was among those in town Monday from El Dorado.

Mrs. Lillian Taylor is on vacation this week from her duties in the recorder's office.

Mrs. Walter Blair is among those currently confined to their homes with a severe type of cold.

Mrs. Philip Volz returned Sunday from a week's absence in the southern part of the state, spending a portion of the time at the annual meeting of the state federation of women's clubs.

The regular meeting of the city council, adjourned on May 4, was to be held Monday evening at the city hall.

Mr. and Mrs. John Purcell left Friday for Berkeley to spend several days with their son, Jack, and family.

COAST GUARD ENLISTMENT OFFICERS SPEND 2 DAYS IN PLACERVILLE

A mobile recruiting unit of the Coast Guard arrived in Placerville Monday morning and will remain for two days with headquarters at room one in the basement of the postoffice.

The recruiting staff is especially interested in interviewing men who are experienced as electricians, machinists or cooks or other crafts.

Enlistment in the Coast Guard is open to men 17 to 35 years of age and it is understood that the men who are experienced in the crafts which are now needed may, upon acceptance, enter the Coast Guard service with petty officer ratings which give full recognition to their civilian competence.

Anyone considering enlistment in the armed services, and who is a skilled worker, may find it to his advantage to discuss Coast Guard opportunities with the members of the mobile recruiting unit during their limited stay in Placerville.

Yards are turning out the regular wooden ones, 110-footers, but the Navy needed a company with long experience in working heavy steel, and these 50 sleek, diesel-powered, avengers will be built by workers who in peacetime pioneered modern streamlined trains. Although almost all present employees of the car works will work on the ships, several thousand men will have to be engaged from outside and trained in shipbuilding crafts. It was pointed out that many skilled workers, including welders, riveters, electricians, pipe and frame fitters, sheet metal workers, joiners, painters, plumbers and cabinet makers are readily adaptable to shipbuilding.

THINGS TO WATCH FOR — Clothes made from peanuts. W. B. Jester, president of the National Peanut Council, says they are a definite early future prospect, and that you won't be able to tell the difference between a "peanut wool" suit and one made of Scotch woolens—Rubberless but nevertheless elastic-topped socks for men. — At least two new ideas in glass jars for home canning, requiring no rubber sealing rings. — A gift candy box in large disc shape, the cover of which is, in effect, a phonograph record that can be played.

BITS O' BUSINESS — American tanks with thicker armor plate than axis tanks and deadlier armament, are now rolling off production lines at Baldwin Locomotive works at three-and-a-half times the rate set by War Department officials a year ago! — A standard harvester-cutter of Papee Machine company of Shortsville, N. Y., has been adapted as a guayule-harvesting machine. One is already at work on a plantation near Salinas, Calif., where the rubber-bearing shrub grows. (That has almost no effect, however, on the immediate rubber problem.)

County Levies Off Slightly

Decline Also Noted In Tax For City During Current Fiscal Year

Property tax levies in El Dorado county for the present year are down 9-100 per cent from levies for 1938-39, a study of tax levies in California counties, made public by California Taxpayers' association, shows. Tax levies by the county, city, school and other districts in the county totalled \$385,934 in 1938-39 and amounted to \$385,579 for the present year. These figures do not include levies for special districts which do not report centrally.

Placerville's levy of \$32,593 for 1941-42, is down from the \$32,656 levied in 1938-39.

Levies for county current purposes, which amount to \$231,940 for this year, are down compared with the \$241,511 levied in 1938-39; county bond levies are up; levies for school current purposes, which amount to \$82,090 this year, are up from the \$82,453 levied in 1938-39; levies for school bonds are down; and levies for special district purposes are up the association found.

The size of next year's local property tax levies in the county depends on the local government budgets now in process of being set up in the county, and districts, the Taxpayers' association pointed out.

"These local government budgets form the activity and spending programs for next year, the crucial year in the American war effort. Any curtailment of activity in co-operation with the war effort must be written into the budgets for next year. If this is not done, money for the activity will be appropriated and, whether or not war rationing and shortages prevent the activity, the money to finance it will be needlessly taken from the people in their property tax levies for next year."

Native Sons Open Grand

Parlor In Lake County

Placerville Parlor is represented this week at the annual Grand Parlor of Native Sons, at Hobergs, Lake County, by Gordon and Stanley Van Vleck and Ellsworth Willard.

District Attorney Henry S. Lyon, junior past president of the Grand Parlor, also is in attendance at the meeting which opened on Monday and will conclude on Thursday.

Love Potions Used

By Savage Natives

It is not generally known that Australia produces one of the most powerful narcotics known, in the form of a shrublike herbage — Pituri, but in the picture "Pituri" at the Empire theatre Friday only, we see the wild aborigines use this drug as a stimulant when long treks are necessary and strangest of all as a love potion, for when one has partaken of it freely, it makes them more susceptible to the amorous advances of an admirer. The herb is essentially a product of the barren wastes and has been used by the inland natives for centuries.

COMING TO PLACERVILLE for the week opening Sunday, May 24, at the new Full Gospel Church, are "The Lightbearers Quartet," a nationally known evangelistic group including, left to right, Kay Lehta, Marie Filardo, Laurette Searles and Ida Sundquist. The church invites the public to attend the services which will be on Sunday and each night throughout the week except Saturday, at 7:45 o'clock.

Badger Hill Mine Deal To Be Aired In Court

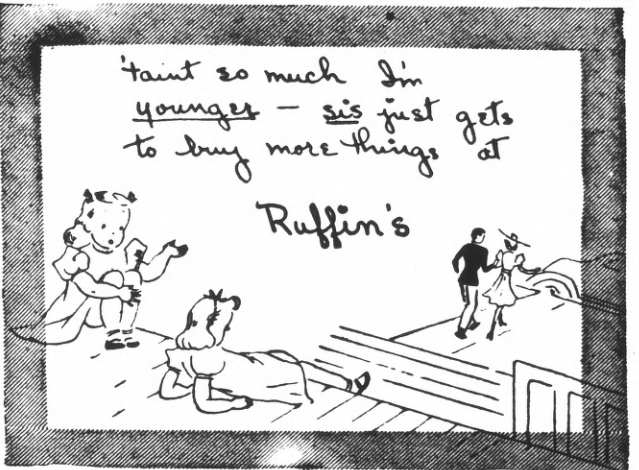

Anton Hoiss has brought suit in Superior Court against C. A. Holman and Joseph Steiner, seeking a settlement of affairs in an alleged association between the three in a mining operation at Badger Hill.

Delbert Parnell, scribe, reports and praying for an award of what is claimed as his share in the physical equipment of the undertaking.

Troop 57 Has Series Of Overnight Camps

We learn that Troop 57, Boy Scouts, which meets each Monday evening at the Federated Church, has had a recent series of overnight camps.

Delbert Parnell, scribe, reports that the camps are in preparation for the district camporee, to be held at Sacramento later this month.

We women must serve too!

NUTRITIVE COOKING

RETAINS MINERALS AND VITAMINS FOR HEALTH!

Vitamins and Minerals...

Here's how to cook and boil them, so as not to waste and spoil them:

1. Use little water. Start vegetables in boiling water.
2. Cook slowly so as to steam through.
3. Cook vegetables as nearly whole as possible. Do not stir.
4. Prevent shrinkage of meat with low-temp roasting.

Consult your dealer about the care and repair of your range.

P.G. and E.

PACIFIC GAS AND ELECTRIC CO.

IT MEMORABLES throughout America are enlisted for the duration of the war to carry on with Nutritive Cooking. Nutritive Cooking means just one thing — getting the most out of food that is cooked. Proper cooking retains vitamins and minerals that are in all foods. Improper cooking boils out or destroys these body-building food energies. Follow the recipes and the menus in your local newspaper and in national magazines that tie-in with the National Nutrition program. Buy food wisely. Store it right. Cook it properly. Take good care of your present range so that it will carry on efficiently and economically for years to come.

station would spoil the privacy of their Summer homes.

Exaggerated representations as to weather conditions were made and suggestions were made that the station be established at Pyramid Lake, Nev., where, in their words, "there was plenty of desert land."

The Lake Tahoe station was selected after due investigation by government officials before the announcement of the selection of the site was made by the secretary of the navy. After the objections mentioned were made the Pyramid Lake site in Nevada was examined and I am advised that this site was not suitable as a naval training station.

With reference to the objection of certain property owners at Lake Tahoe I have contended there is no locality or site, no matter how selected, too good for the training of the men of our army or navy, and requested, as had been originally announced by the secretary of the navy, that the construction of the project at Lake Tahoe be proceeded with immediately.

I was advised by the navy department that due to engineering difficulties in construction problems Lake Tahoe would not be used as a naval training station. Also was advised that the protest of certain property owners was not a factor in this decision.

Having intimate knowledge of the lake region and inasmuch as the site had been duly investigated and selected, I was quite astonished that engineering problems have developed that preclude the construction of the project.

Still believing it to be to the best public interest and to the advancement of our war effort I have requested that a reconsideration be given to the establishment of a naval training station at Lake Tahoe.

LIEUTENANT AND MRS. MYERS PAY SHORT VISIT TO PLACERVILLE

Second Lieutenant and Mrs. Jack Myers were here Saturday from San Francisco for a short visit with the lieutenant's grandparents, Mr. and Mrs. W. H. Myers, of Placerville. The couple were on a short wedding trip.

Mrs. Myers is the former Nanette Mitchell, daughter of Mrs. Frederica Mitchell, of San Francisco, and her husband is a son of Mrs. Eugene Hill, of San Francisco, and the late William Myers, of this city.

They were wed on May 14th at Trinity Episcopal Church, in San Francisco, following a courtship which began when they were fellow-students at San Francisco Junior College.

Lieutenant Myers is in the cavalry, presently stationed at Camp Lockett, on the southern border, and expects to leave the latter part of this week for special instruction at Fort Riley, Kansas, where Mrs. Myers will join him in due time.

Judge Thompson Presides In Sacramento Case

Judge George H. Thompson was at Sacramento last week, sitting in the Sacramento County Superior Court during the hearing on the test of the validity of the Sacramento city ordinance regulating taxicab fares.

A taxi concern brought the action on appeal from a police court case in which one of its drivers was fined for failure to collect the specified fare. Judge Thompson has the matter under advisement.

MAKING AMERICA STRONG

KITCHENS THAT GO TO WAR

STOVES, REFRIGERATORS AND TRUCKS FROM INDUSTRY MAKE COMPACT KITCHENS ON WHEELS THAT NOW ACCOMPANY OUR FIGHTING FORCES.

CAPABLE OF SPEEDING ALONG AT 40 MILES AN HOUR AND PREPARING FOOD AT THE SAME TIME, THEY KEEP THE TROOPS IN THE FIELD WELL FED.

NATIONAL ASSOCIATION OF MANUFACTURERS

If an army really travels on its stomach, Uncle Sam's fighting forces should be able to go faster and farther than any other in the world, for the American Army is the best fed anywhere. Movable kitchens developed by the Quartermaster Corps and supplied by industry make it possible for soldiers in the field to have hot, substantial food on the firing line as well as in camp.

These kitchens move to the front with the same speed as the fastest truck. They consist of three gasoline-burning ranges clamped onto a one and one-half ton Army truck.

The units have fourteen-gallon cooking pans; fifteen-gallon cooking pots and eighteen-gallon double-boiler insets. They can feed 150 men a complete ration day after day.

Portable baking units are also being used today. Five men are enough to operate two ovens, and they can produce about 2,000 pounds of bread in 24 hours.

A far cry from the wood-burning field oven used during the World War, these modern ovens provide a better fire than the old models, and

they can use gasoline, coal, or wood for fuel.

In addition to field kitchens and field bakeries that go right up to the front, many other up-to-date industrial products are now being used by the Army to speed the work of serving three square meals a day to its rapidly expanding and highly mobile forces.

At the front potatoes are still peeled by hand. However, back home in the big centers an electric potato peeler can now "peel" 100 pounds of spuds within four minutes. A horizontal grindstone in the machines wears off the jackets, and

VEERKAMP-BRANDER WEDDING SOLEMNIZED ON SUNDAY AT CARSON CITY

Following the marriage on Sunday at the Federated Church at Carson City before the Rev. John Harvey, Mr. and Mrs. Malcolm (Sammy) Veerkamp are on a week's wedding trip after which they will be at home to friends at their residence on High Street.

Mrs. Veerkamp is the former Helen Brander, daughter of Mr. and Mrs. Robert Brander, of Burbank, and formerly of this city. She is a graduate of the county high school and has been employed at the local Montgomery Ward order office.

Her husband, younger son of Mr. and Mrs. Louis Veerkamp, of Gold Hill, is a graduate of the county high school and is associated with his father and his brother, Maurice Veerkamp, in the management of the Pino Vista Dairy.

The couple were accompanied to Carson City by their parents and by the bride's sister, Miss Lois Brander, all of whom were in attendance at the wedding service.

Miss Frances Byrnes has been a patient at Placerville Sanatorium for the treatment of an infected finger, which interfered with her schedule during the closing days of the Spring semester at the University of California.

water, agitated as in an electric clothes washer, keeps the potatoes moving. Electric dough mixers, meat choppers, dishwashers, steam kettles—these are a few of the kitchen inventions that have been adapted by the Quartermaster Corps to Army use.

Clean Up and SALVAGE for VICTORY

Get In The Scrap!

REMEMBER THAT An old rubber heel or an empty tooth paste tube isn't too little

for you to promptly salvage and put into commercial channels for reclamation and re-use to help

WIN THE WAR!

Clean up attics, basements, store rooms, garages, out-buildings, yards, lots and street margins for everything discarded or obsolete made of any kind of metal, including old or broken metal furniture, machines, toys, bolts, screws, nails, etc., no matter how small, excepting tin cans which cannot be reclaimed here.

Rescue every scrap of discarded rubber, including old rubber, wringer rolls, hot water bottles, rubber hose, and, of course, tires and tubes.

Paper of all kinds, including newspapers, magazines, wrapping paper, paper bags and cardboard should be carefully separated, saved and tied up separately according to kind of paper in flat bundles. Keep dry and clean. Paper is needed to make new paperboard for packaging and shipping war materials.

Discarded clothing should be salvaged. Wool is already scarce. Old rags are needed now as wiping rags in the manufacture of munitions and machinery and for roofing and flooring materials in emergency construction. Save old burlap bags, too. They can be used again.

COOPERATE IN LOCAL SALVAGE DRIVE

On May 22, the Placerville P.T.A. will sponsor "War Salvage Day." City trucks will pick up scrap deposited at the curb or property lines.

On May 29, The Shakespeare Club will sponsor the War Salvage Day, and on June 5th the Boy Scouts will sponsor that day.

In the rural districts, the Granges and other community clubs will sponsor collections which will be made by county trucks from designated centrally located points.

You may receive the cash for your scrap, or you may designate any charitable organization, such as the Red Cross or U. S. O., to whom the cash may be paid.
